

Reference Letter

To Whom It May Concern,

I am delighted to provide this reference for Nimar Dang, who worked with NuraXR (now rebranded as NuraKit) from 10 March 2025 to 10 July 2026 as Head of Marketing, where she contributed her expertise in an execution-focused capacity on a volunteer basis.

During her time with NuraXR, Nimar made a significant contribution to our marketing, brand development, digital engagement, and strategic growth. She consistently demonstrated initiative, creativity, technical capability, and a strong work ethic.

One of Nimar's most notable achievements was managing our LinkedIn presence for NuraXR prior to its rebranding to NuraKit. Through a strategic content and engagement approach, including targeted outbound networking, industry-specific audience tagging, and consistent community management, she increased our LinkedIn engagement rate from 6.8% to 17.9% as of April 2026.

Nimar created social media posts, flyers, videos, funding campaign content, interview highlights, website copy, and digital campaigns. She also maintained an excellent response rate to comments and played an important role in the rebranding of NuraXR into NuraKit, contributing competitor research, tone-of-voice analysis, branding recommendations, content strategy, website content, and explainer videos.

She demonstrated confidence using Figma and Miro and proactively adopted AI tools including ChatGPT, Claude, Gemini, ElevenLabs, Kling AI, HeyGen, Gamma, Grok Imagine, Sora, Midjourney, Zapier and Lovable.

Beyond her technical abilities, Nimar was humble, dependable, hardworking and an excellent team player. She consistently demonstrated professionalism, initiative and a willingness to support the team whenever needed.

I have no hesitation in recommending Nimar Dang for roles in marketing, digital communications, branding or content creation. I am confident she will be an asset to any organisation.
